as you never thought could be is yours to command quick as you buy some Prince Albert and fire-up a pipe or a home-made cigarette!

Prince Albert gives you every tobacco satisfaction your smoke-appetite ever hankered for. That's because it's made by a patented process that cuts out bite and parch! Prince Albert has always been sold without coupons or premiums. We prefer to give quality!

PRINCE ALBERT

the national joy smoke

tins, 10c; handsome pound
and half-pound tin humi-
dors—and that corking fine
pound crystal-glass humi-
dor with sponge-moistener
top that keeps the tobacco
in such clever trim—always!

Men who think they can't smoke a pipe or roll a cigarette can smoke and will smoke if they use Prince Albert. And smokers who have not yet given P. A. a try-out certainly have a big surprise and a lot of enjoyment coming their way as soon as they invest in a supply. Prince Albert tobacco will tell its own story!

The Alien Conspiracy Against Wilson.

The most important plank in the Democratic platform—the most important plank in any platform—is that in which the Democratic national convention denounced the alien conspiracy against the peace and welfare and security of the United States.

The Republican platform dodged this issue. The Republican convention dodged it. The Republican candidate for President has dodged it. The Democratic party under the leadership of President Wilson has met it and met it without flinching.

The issue is fundamental. Undivided allegiance is at the beginning of government. No nation can survive that is half-loyal and half-alien in its sentiments. No country can maintain free institutions if the balance of political power is in the hands of men whose hearts and sympathies are foreign.

Until we have disposed of that question, all other questions are of minor consequence. Professional German-American leaders have long been in a conspiracy against the administration of the government of the United States because of the foreign policies of the President. Their sole grievance against Wilson is that he has maintained American rights contrary to the military aims and objects of the German empire. They indict him for his refusal to sacrifice the law of nations and the sovereignty of the United States to further the military necessity of Germany.

In revenge for the President's pro-American foreign policies, the leaders of an alien conspiracy have decreed his political destruction. It is their boast that they control the German vote and that the German vote will decide the election. They have rallied to the support of Mr. Hughes, not necessarily because they love Mr. Hughes, but because he is the one instrument that they can employ to punish the President and give notice to the world that no American administration can survive unless it is subservient to their influence.

This issue was not made by Mr. Wilson. It was not invited by him. It was made by the German propagandists who set out to wreck his administration. Before all other issues of the campaign, let us have a referendum on the question of whether the government of the United States is hereafter to be subjected to alien blackmail and whether a President of the United States can be driven out of office because his foreign policies are not made in Europe. Until that is settled, nothing is settled.—Post-Dispatch.

The Ozark Trail Convention.

(Seymour, Mo., Republican.)
With their delegation increased yesterday by the addition of ten booters from Salem, good road enthusiasts pushing the adoption of the Great Ozark Divide for the route between Springfield and St. Louis are confident that their course will be

selected by the Ozark Trails convention as the most feasible route between the two cities.

St. Louis delegates to the convention yesterday accepted the invitation of the Great Ozark Divide boosters to make their return trip over the route. They will take measurements on the way and thoroughly investigate the conditions.

The Dent county delegation has one of the most attractive displays of the convention at the Colonial hotel. A large map, showing the proposed Ozark Trail over the Divide route, surrounded by many large pictures of scenery along the course, compose the display which has proved a great attraction to the visiting delegates.

D. Edgar Fletcher, of Arcadia, the authorized representative of the Iron county highway commission, arrived in Springfield yesterday and joined the Dent county delegates in boosting for the Divide route.
A road bond issue of \$100,000 will be voted on in Dent county on July 15. According to G. D. Addison, treasurer of the Salem special road district, it will carry by a big majority. Petitions are being circulated in Iron county for an election on an issue of a like sum and Mr. Fletcher is optimistic over its outcome.

According to Mr. Fletcher a macadamized road now runs from Iron Mountain to St. Louis, a distance of 108 miles. A trip between the two points, he said, is made in about 4 1/2

hours. The only unconstructed road over the route between Springfield and St. Louis is a link of twenty-eight miles from the east end of Dent county line across Iron county to Iron Mountain, and this will be built as soon as the two bond issues are authorized.
